

## **STATEMENT OF PURPOSE**

### **RS19645**

The purpose of this legislation is to increase the number of representatives on the Board of Cosmetology to more adequately represent the 15,000 licensed cosmetologists in the state by adding another school representative as well as a nail technician to the Board. It will also eliminate geographical and association constraints from the appointment process and will clear up conflicting language within the current law on qualifications for board members.

### **FISCAL NOTE**

There is no fiscal impact to the general fund.
